Storage Technologies

MEDIA-TECH Expo 2007 is expanding in several directions to offer you a wide range of new activities and opportunities.

It is expanding horizontally by broadening the scope of the event: From now on, it will focus on Optical Media as well as Solid State Memory and Magnetic Storage, thus following the trend in international consumer markets using digital recorders, players and receivers with different types of storage media.

The MEDIA-TECH Expo 2007 is the perfect place to launch the latest production machines, equipment and materials for the media manufacturing industry.

Book your booth now and improve your business opportunities for the coming years!

Jointly organized by

Messe Frankfurt, Inc.
