MEDIA-TECH Expo 2008 –
Bringing New Formats to Life

MEDIATECH
Serving the media industry

MEDIA-TECH Expo – THE Show for Media Manufacturing

The Media-Tech Expo in Frankfurt will be this year's only show to bring the entire media manufacturing industry together, with the very latest in systems and developments on blue laser media. See high definition media being produced live on the show floor, and hear about the very latest updates and developments in media production.

At Frankfurt, visitors will be able to see the latest and most comprehensive line-up of systems for media manufacturing, such as DVD, HD DVD and Blu-ray Disc, with working demonstrations of every stage of the manufacturing process from mastering through to printing and packaging.

Where it all Happens

With over 100 companies taking part, MEDIA-TECH Expo 2008 is this year's largest international trade event for optical discs. The Expo will take place May 6 - 8, 2008 in Hall 5.0 of the Frankfurt Exhibition Centre in Germany.

The biggest names in media manufacturing will all be there with their newest production solutions for high definition media running right on the show floor.

Learn all there is to know about the market and technology for the future generations of optical media at MEDIA-TECH Expo 2008 – bringing new formats to life.

MEDIA-TECH Expo Delivers the Entire Media Manufacturing Market to You!

The MEDIA-TECH Expo is the place for exhibitors and visitors to learn about synergies, efficiency and productivity for their businesses. It promises to identify ways to benefit from the current business of CD and DVD and learn how to profit from the emerging formats – HD DVD and Blu-ray Disc. Several major manufacturers have announced that they will be presenting their new production systems for 3rd generation optical discs – Dual Layer Blu-ray Discs & HD DVD – in operation at the MEDIA-TECH Expo in Frankfurt.

Right on the Show Floor – Highlights of Events in the Presentation Theater:

Once again there will be presentations by industry experts on the latest developments and trends in the media markets. The MEDIA-TECH Expo 2008 will feature a number of seminars from several associations and groups.

- An up-to-the-minute snapshot from the Blu-ray Disc Association on the status of the format
- Updates on the latest developments in dual layer BD50 production from Sony DADC
- The MediaPack panel – expert views on media packaging and the environment
- Solar market overview from cell and panel producers and hardware manufacturers
- A panel discussion on organic and printed electronics

The Party

The MEDIA-TECH Networking Party will take place on the first night of the show – May 6, and starts at 6 pm in the lobby of the Maritim Hotel. Catch up and relax with friends, colleagues and business partners.
