

MAKING VINYL Newsletter Nov. 2018

Smashed Plastic Opens in Chicago

After a 20 year dry spell in the Windy City, there is a new pressing plant in town.

CD's in Short Supply?

According to a recent article by Billboard, because CD production has relocated to Mexico, stores haven't been receiving their shipments on time and can't keep up with the uptick in demand.

New Plating Plant to Launch in UK

Stamper Discs to offer full lacquer/DMM through stamper service from their new facility in Sheffield, UK.

Why Vinyl Sounds Better

By Clint Holley, Well Made Music

It has become clear in the past five years that consumers love vinyl records.
