

Registration is Open!
May 2 & 3, 2019
MEDIA-TECH Association and Making Vinyl
are Coming to Berlin

Both events to be held at Berlin's legendary Meistersaal

MEDIA-TECH will kick off the event on May 2 with their conference "**The World of Physical Media**", focused on physical media (Vinyl, Cassettes & Optical Disc). This Conference builds the bridge for cross media solutions for Music and Movies. Come to Berlin: Let's network, exchange & do business together!

After two successful events in the U.S., "**Making Vinyl**" now brings to Europe for the first time its B2B conference celebrating vinyl's global rebirth on May 3 at the legendary Meistersaal in a building with numerous music studios, where David Bowie, Iggy Pop, Depeche Mode, Nick Cave, U2, R.E.M. and countless other major artists recorded LPs.

Stay tuned for further announcements regarding a keynote speaker and other program details for the Berlin event.
